

Paid Ads Performance Report

Facebook Ads + Google Ads

Report period: {{date_range}} | Prepared by: Pedicel Marketing

1. Report Overview

This report covers paid media performance across Facebook / Meta Ads and Google Ads for the period specified above. All placeholder values in {{double braces}} are auto-populated fields to be replaced by data pulled from the respective ad platforms.

Report period	Total ad spend	Total conversions	Blended ROAS
{{date_range}}	₦{{total_spend}}	{{total_conversions}}	{{roas}}x

2. Facebook / Meta Ads

2.1 Core KPIs

Metric	What it measures	Benchmark / target
Impressions	How many times your ad was displayed	—
Reach	Unique people who saw the ad	—
Frequency	Impressions ÷ reach	1.5 – 3.0 (above 3.5 = audience fatigue)
CTR (link)	Link clicks ÷ impressions	> 0.8%–1.5%
CPC	Spend ÷ link clicks	Depends on objective
CPM	Cost per 1,000 impressions	₦200 – ₦1,200 (Nigeria)
CPL / CPA	Spend ÷ leads or actions	Varies by industry
ROAS	Revenue ÷ ad spend	3x+ (e-commerce)
Conversion rate	Conversions ÷ link clicks	> 3%–5%
Lead form CVR	Leads ÷ form opens (lead gen objective)	> 10%

2.2 Creative & Engagement Metrics

These metrics diagnose the quality of your ad creative and audience engagement beyond clicks.

Metric	What it measures	How to calculate
Video hook rate	% who watched the first 3 seconds	3-sec views ÷ impressions
Video hold rate	% who continued after the hook	ThruPlays ÷ 3-sec views
ThruPlay rate	% who watched 15s or to the end	ThruPlays ÷ impressions

Engagement rate	Likes, comments, shares vs. reach	(Reactions + comments + shares) ÷ reach
Landing page view rate	% who actually loaded your LP	LP views ÷ link clicks
Add-to-cart rate	% who added to cart after LP view	ATCs ÷ LP views

2.3 Campaign Breakdown

One row per active campaign. Duplicate rows as needed. Totals row at the bottom is calculated automatically.

Campaign name	Object ive	Spend (£)	Impres sions	Clic ks	CTR	CPC (£)	CPM (£)	Lea ds	CPL (£)
{{campaign_name}}	{{obj}}	{{spend}}	{{impr}}	{{clicks}}	{{ctr}}%	{{cpc}}	{{cpm}}	{{leads}}	{{cpl}}
TOTAL	—	{{total}}	{{total}}	{{total}}	{{avg}}%	{{avg}}	{{avg}}	{{total}}	{{avg}}

Watch frequency closely. Once it exceeds 3.5, CPM typically rises and CTR drops, signalling audience fatigue — consider expanding targeting or refreshing creatives.

3. Google Ads

3.1 Core KPIs

Metric	What it measures	Benchmark / target
Impressions	Searches where your ad was shown	—
CTR	Clicks ÷ impressions	> 4%–7% (search)
Avg. CPC	Spend ÷ clicks	Depends on keyword competition
Quality Score	Expected CTR + ad relevance + landing page	Target: 7–10 per keyword
Impression share	Your impr. ÷ total eligible impressions	Target: > 60%
Impr. share lost (budget)	Impressions missed due to low budget	< 20%
Impr. share lost (rank)	Impressions missed due to low Ad Rank	< 10%
Conversion rate	Conversions ÷ clicks	> 3%–5%
CPA	Spend ÷ conversions	Varies by industry
ROAS	Conversion value ÷ spend	3x+ (e-commerce)
Top of page rate	% ads shown above organic results	Target: > 50%

3.2 Search-Specific Diagnostic Metrics

These metrics are unique to Google Search and Performance Max campaigns and are essential for diagnosing efficiency.

Metric	What it measures	Data source
Search term report	Actual queries that triggered your ads	Google Ads UI / API
Keyword Quality Score breakdown	Expected CTR, ad relevance, landing page experience	Google Ads API
Asset performance labels	Best / Good / Low per headline and description (RSA/PMax)	Google Ads API
Auction insights	How you compare vs competitors on impression share	Google Ads UI
Top vs. other impr. %	% of ads shown in top positions vs. elsewhere	Google Ads API

3.3 Campaign Breakdown

One row per active campaign. Add campaign type: Search, Display, PMax, Video, or Shopping.

Campaign name	Type	Spend (₦)	Impres sions	Clic ks	CTR	Avg. CPC	Conve rsions	CPA (₦)	ROA S
{{campaign_na me}}	Search	{{spen d}}	{{impr}}	{{clic ks}}	{{ctr}} %	{{cpc}}	{{conv}}	{{cpa}}	{{roas }}x
TOTAL	—	{{total}}	{{total}}	{{tot al}}	{{avg }}%	{{avg}}	{{total}}	{{avg}}	{{avg}} x

If Quality Score is below 7 on high-spend keywords, your CPCs are inflated. Prioritize improving ad relevance and landing page experience for those terms before increasing budget.

4. Key Benchmarks

Use these as health-check thresholds when reviewing campaign performance at a glance.

Facebook — Nigeria / B2B	Target
CTR (link)	> 0.8%–1.5%
CPM	₦200 – ₦1,200
Frequency	1.5 – 3.0
Video hook rate	> 30%
Lead form CVR	> 10%
ROAS (e-commerce)	3x+

Google Search Ads	Target
CTR (search)	> 4%–7%
Quality Score	7–10
Impression share	> 60%
Conversion rate	> 3%–5%
Impr. lost (budget)	< 20%
Impr. lost (rank)	< 10%

5. Insights & Recommendations

Complete this section after reviewing the data above. Use one paragraph per platform.

5.1 Facebook Ads Summary

{{AI-generated or manually written narrative summarising Facebook performance, wins, concerns, and next steps.}}

5.2 Google Ads Summary

{{AI-generated or manually written narrative summarising Google Ads performance, wins, concerns, and next steps.}}

5.3 Recommended Actions

1. {{Action item 1 — e.g. Pause underperforming ad sets with CPL > 2x target}}
2. {{Action item 2 — e.g. Refresh creatives for campaigns with frequency > 3.5}}
3. {{Action item 3 — e.g. Improve Quality Score on keywords below 6 by updating ad copy}}
4. {{Action item 4}}
