

Instagram Performance Report

Organic + Paid (Meta Ads)

Report period: {{date_range}} | Prepared by: Pedicel Marketing

Report Period	Total Followers	Reach (Period)	Avg. Engagement Rate	Total Impressions
{{date_range}}	{{followers}}	{{reach}}	{{eng_rate}}%	{{impressions}}

1. Report Overview

This report covers Instagram organic and paid performance for the period specified above. Organic data is sourced from Instagram Insights (via Meta Business Suite or Creator Studio). Paid data is sourced from Meta Ads Manager. All {{placeholder}} values should be replaced with live data from the respective platforms.

2. Audience & Follower Metrics

Metric	Current Period	Previous Period	Change
Total Followers	{{followers_current}}	{{followers_prev}}	{{change}}
New Followers Gained	{{gained}}	{{prev_gained}}	{{change}}
Unfollows	{{lost}}	{{prev_lost}}	{{change}}
Net Follower Growth	{{net}}	{{prev_net}}	{{change}}

2.1 Audience Demographics

Attribute	Top Segment	% of Audience
Top Age Group	{{age_group}}	{{pct}}%
Gender Split (Female)	Female	{{pct}}%
Gender Split (Male)	Male	{{pct}}%
Top City	{{city}}	{{pct}}%
Top Country	{{country}}	{{pct}}%

Attribute	Top Segment	% of Audience
Peak Activity Time	{{time}}	—

3. Organic Content Performance

3.1 Core Organic KPIs

Metric	What It Measures	Benchmark / Target
Impressions	Total times content was displayed (includes repeats)	Track MoM trend
Reach	Unique accounts who saw your content	> 30% of followers/period
Engagement Rate (by Reach)	(Likes + Comments + Saves + Shares) ÷ Reach	> 3%–6% (IG avg: ~3.5%)
Saves	Users who bookmarked the post	High saves = high-value content
Shares (DM + Stories)	Content shared to stories or sent via DM	Indicates viral potential
Comments	Total comments received	Quality > quantity
Story Views (Avg.)	Average accounts reached per Story	Track against follower count
Story Completion Rate	% who watched story to the end	> 70%
Reels Plays	Total plays on Reels content	Track vs. feed post reach
Reels Avg. Watch %	Average % of Reel watched per play	> 50% = strong hook
Profile Visits	Users who visited your profile from content	Leading indicator of growth
Link in Bio Clicks	Clicks from profile to external link	Conversion intent signal

3.2 Content Format Comparison

Format	Posts Published	Avg. Reach	Avg. Engagement Rate	Avg. Saves
Feed Photo	{{count}}	{{reach}}	{{rate}}%	{{saves}}
Carousel	{{count}}	{{reach}}	{{rate}}%	{{saves}}
Reels	{{count}}	{{reach}}	{{rate}}%	{{saves}}

Format	Posts Published	Avg. Reach	Avg. Engagement Rate	Avg. Saves
Stories	{{count}}	{{reach}}	{{rate}}%	—
Static Graphic	{{count}}	{{reach}}	{{rate}}%	{{saves}}

3.3 Top Posts This Period

Post Topic / Caption Snippet	Format	Reach	Eng. Rate	Saves	Shares
{{post_1}}	{{format}}	{{reach}}	{{rate}}%	{{saves}}	{{shares}}
{{post_2}}	{{format}}	{{reach}}	{{rate}}%	{{saves}}	{{shares}}
{{post_3}}	{{format}}	{{reach}}	{{rate}}%	{{saves}}	{{shares}}
{{post_4}}	{{format}}	{{reach}}	{{rate}}%	{{saves}}	{{shares}}
{{post_5}}	{{format}}	{{reach}}	{{rate}}%	{{saves}}	{{shares}}

Reels consistently outperform feed photos in reach due to Instagram's algorithmic distribution. Carousels tend to generate higher saves, making them ideal for educational content.

4. Stories Performance

Metric	Current Period	Previous Period	Change
Total Stories Published	{{stories_count}}	{{prev}}	{{change}}
Avg. Story Reach	{{avg_reach}}	{{prev}}	{{change}}
Avg. Completion Rate	{{completion}}%	{{prev}}%	{{change}}
Sticker Taps / Link Taps	{{taps}}	{{prev}}	{{change}}
Story Replies	{{replies}}	{{prev}}	{{change}}
Exits (Early Swipe-Aways)	{{exits}}	{{prev}}	{{change}}

5. Instagram Ads (Paid) Performance

5.1 Core Paid KPIs

Metric	What It Measures	Benchmark / Target
Impressions	Total ad impressions served on Instagram	—
Reach	Unique users who saw the ad	—
Frequency	Impressions ÷ Reach	1.5 – 3.0 (above 3.5 = fatigue)
CTR (Link)	Link clicks ÷ Impressions	> 0.8%–1.5%
CPC	Spend ÷ Link Clicks	Depends on objective
CPM	Cost per 1,000 Impressions	₦200 – ₦1,200 (Nigeria)
CPL / CPA	Spend ÷ Leads or Actions	Varies by industry
ROAS	Revenue ÷ Ad Spend	3x+ (e-commerce)
Video Hook Rate	% who watched first 3 seconds	> 30%
ThruPlay Rate	% who watched 15s or to completion	> 15%

5.2 Campaign Breakdown

Campaign Name	Objecti ve	Spend (₦)	Reach	CTR	CPM (₦)	Results	CPR (₦)
{{campaign_1}}	{{obj}}	{{spend}} }	{{reach}} }	{{ctr}} %	{{cpm}}	{{results}} }	{{cpr}}
{{campaign_2}}	{{obj}}	{{spend}} }	{{reach}} }	{{ctr}} %	{{cpm}}	{{results}} }	{{cpr}}
{{campaign_3}}	{{obj}}	{{spend}} }	{{reach}} }	{{ctr}} %	{{cpm}}	{{results}} }	{{cpr}}
TOTAL	—	{{total}}	{{total}}	{{avg}} %	{{avg}}	{{total}}	{{avg}}

6. Key Benchmarks

Metric	Target	Watch Threshold
Organic Engagement Rate	> 3%–6%	< 1.5% = content strategy review
Story Completion Rate	> 70%	< 50% = story too long or irrelevant
Reels Avg. Watch %	> 50%	< 30% = hook problem
Follower Growth (MoM)	> 2%–5%	Flat or declining = content/targeting issue
Paid CTR	> 0.8%–1.5%	< 0.5% = creative or audience mismatch
Paid CPM (Nigeria)	₦200 – ₦1,200	> ₦1,500 = audience saturation
Paid Frequency	1.5 – 3.0	> 3.5 = creative fatigue
Saves per Post	Monitor trend	Consistently low = not educational enough

7. Insights & Recommendations

7.1 Organic Summary

{{AI-generated or manually written narrative summarising organic Instagram performance, top-performing content formats, audience signals, and growth trends for the period.}}

7.2 Paid Ads Summary

{{AI-generated or manually written narrative summarising Instagram Ads performance, creative wins and concerns, audience efficiency, and spend optimisation notes.}}

7.3 Recommended Actions

1. {{Action 1 — e.g. Increase Reels frequency to 3x/week based on superior reach}}
2. {{Action 2 — e.g. Refresh ad creatives for campaigns with frequency above 3.5}}
3. {{Action 3 — e.g. Test link sticker in Stories for higher swipe-up conversion}}
4. {{Action 4 — e.g. A/B test Reel hooks across 2 ad sets}}
5. {{Action 5}}
