

SEO Performance Report

Google Search Console

Report period: {{date_range}} | Prepared by: Pedicel Marketing

Report Period	Total Clicks	Total Impressions	Avg. Position
{{date_range}}	{{total_clicks}}	{{total_impressions}}	{{avg_position}}

1. Report Overview

This report covers organic search performance sourced directly from Google Search Console for the period specified above. All {{placeholder}} values are to be replaced with live data. Use this document to diagnose visibility, click-through efficiency, and keyword-level opportunities.

2. Core KPIs — Google Search Console

2.1 Key Metrics Explained

Metric	What It Measures	Benchmark / Target
Total Clicks	Users who clicked your site from Google search results	MoM growth target
Total Impressions	Times your pages appeared in Google search results	Track for visibility trends
Average CTR	Clicks ÷ Impressions	> 3%–5% (varies by position)
Average Position	Mean ranking position across all tracked queries	Target: Top 10 (< 10.0)
Pages Indexed	Total pages Google has indexed from your site	Should match target pages
Coverage Errors	Pages Google failed to index (crawl errors, redirects)	Target: 0 critical errors
Core Web Vitals (LCP)	Largest Contentful Paint — page load speed	< 2.5 seconds (Good)
Core Web Vitals (CLS)	Cumulative Layout Shift — visual stability	< 0.1 (Good)
Core Web Vitals (INP)	Interaction to Next Paint — responsiveness	< 200ms (Good)

Metric	What It Measures	Benchmark / Target
Mobile Usability	Pages passing Google's mobile-friendliness checks	100% pass rate

2.2 Period Summary

Metric	Current Period	Previous Period	Change (%)
Total Clicks	{{clicks_current}}	{{clicks_prev}}	{{clicks_change}}%
Total Impressions	{{impr_current}}	{{impr_prev}}	{{impr_change}}%
Avg. CTR	{{ctr_current}}%	{{ctr_prev}}%	{{ctr_change}}%
Avg. Position	{{pos_current}}	{{pos_prev}}	{{pos_change}}

3. Top Performing Pages

Source: Google Search Console > Search Results > Pages tab. Filter by the report period.

Page URL	Clicks	Impressions	CTR	Avg. Position
{{page_url_1}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{page_url_2}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{page_url_3}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{page_url_4}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{page_url_5}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
TOTAL / AVG.	{{total}}	{{total}}	{{avg}}%	{{avg}}

Pages with high impressions but low CTR (below 2%) are strong candidates for title tag and meta description optimisation.

4. Top Keywords / Queries

Source: Google Search Console > Search Results > Queries tab. Sort by Clicks descending.

Query / Keyword	Clicks	Impressions	CTR	Avg. Position
{{keyword_1}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_2}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_3}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_4}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_5}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_6}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_7}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_8}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_9}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
{{keyword_10}}	{{clicks}}	{{impr}}	{{ctr}}%	{{pos}}
TOTAL / AVG.	{{total}}	{{total}}	{{avg}}%	{{avg}}

Flag keywords ranking between positions 5–15 as 'quick win' targets — small on-page improvements can push these into top-3 positions. Keywords at position > 20 with high impressions indicate emerging relevance and may warrant new content creation.

5. New vs. Returning Queries

Compare queries that are newly appearing this period vs. those that appeared in the previous period. Use the Search Console date comparison feature.

Category	Count	Avg. Clicks	Notes
New queries this period	{{new_queries}}	{{avg_clicks}}	Emerging topics to monitor
Queries improved position	{{improved}}	{{avg_clicks}}	Winning — protect rankings
Queries declined position	{{declined}}	{{avg_clicks}}	Requires content refresh
Queries dropped out (no impressions)	{{dropped}}	—	Investigate deindexing or penalties

6. Core Web Vitals & Indexing Health

6.1 Core Web Vitals (CWV)

Metric	Status	Good Threshold	Needs Improvement	Poor
LCP (Largest Contentful Paint)	{{lcp_status}}	< 2.5s	2.5s – 4.0s	> 4.0s
CLS (Cumulative Layout Shift)	{{cls_status}}	< 0.1	0.1 – 0.25	> 0.25
INP (Interaction to Next Paint)	{{inp_status}}	< 200ms	200ms – 500ms	> 500ms

6.2 Indexing & Coverage

Status	Count	Action Required
Valid pages indexed	{{valid_indexed}}	Monitor for drops
Valid with warnings	{{valid_warnings}}	Review and resolve
Excluded (noindex / redirects)	{{excluded}}	Verify intentional
Errors (crawl / 404 / server)	{{errors}}	Fix immediately
